Information for Exhibitors

The IEEE MTT-S International Microwave Symposium 2007 (IMS 2007) will be held in Honolulu, Hawaii, Sunday, June 3 through Friday, June 8, 2007 during Microwave Week 2007. IMS 2007 is the largest international conference devoted to the research, development, and application of RF and microwave theory and techniques.

Microwave Week 2007: The IMS 2007 exhibition and technical sessions will run from Tuesday through Thursday of Microwave Week. Workshops will be held on Sunday, Monday, and Friday. In addition to IMS 2007, a historical exhibit, the RFIC Symposium (www.rfic2007.org), and the ARFTG Conference (www.arftg.org) will also be held in Honolulu during Microwave Week 2007.

Hawaii Convention Center: IMS 2007 will be held at the Hawaii Convention Center, which combines the modern requirements of a state-of-the-art meeting facility with the beauty, comfort and culture that are uniquely Hawaii. Soaring forms and breathtaking space call to mind tropical palm trees and Polynesian sailing canoes. The design of the glass-front center represents the unique culture of Hawaii, with its bold architecture, \$2 million Hawaiian art collection, and features such as a rooftop tropical garden, glass-encased meeting rooms and outdoor function spaces lined with giant palm trees.

Venue: The Hawaiian Islands are a world-renowned visitor destination with many activities for you and your family to enjoy. Snorkel among tropical fish at Hanauma Bay. Learn to surf at Waikiki Beach. Golf at one of more than 80 courses and world-class resorts. Explore fiery lava flows on the Big Island. Hike through lush rainforests on Kauai. Cruise down a Maui volcano on a mountain bike. Many of these and other historical Hawaiian cultural activities will be part of our guest program.
